

Trends in Metabolic Studies of Pharmaceutical Drugs

Preliminary program

09.00	<i>Registration with coffee and sandwich</i>
09.55	Chair: <i>To be confirmed</i> Introduction <i>To be confirmed</i>
10.00	Biotransformation: Impact and Application of Metabolism in Drug Discovery <i>Carl Petersson, Merck KgaA, Darmstadt, Germany</i>
10.30	Drug Metabolism in Gut Microflora <i>Ian D Wilson, Imperial College, London, UK</i>
11.00	Use of Microdoses of C-14 for Early Human Metabolic Data <i>Bosse Lindmark, AstraZeneca, Göteborg, Sweden</i>
11.30	MS Imaging of Small Molecular Drugs and Metabolites in Biological Tissues <i>Per Andréén, Uppsala University, Uppsala, Sweden</i>
12.00	<i>Lunch</i>
13.00	Chair: <i>To be confirmed</i> Separation and Metabolism of Oligonucleotides <i>Sylwia Studzinska, Nicolaus Copernicus University, Torun, Polen</i>
13.30	Metabolites in Safety Testing – 15 Years On <i>Johanna Haglund, Metasafe AB, Södertälje, Sweden</i>
14.00	4 short lectures 15 min each selected from registered participants
15.00	<i>Coffee</i>
15.30	Metabolism of Peptide- and Protein Conjugates <i>Jesper Kammergaard Christensen, NovoNordisk, Bagsvaerd, Denmark</i>
16.00	Metabolism of Peptides and Oligonucleotides – Comparisons Between <i>In Vitro</i> and <i>In Vivo</i> <i>Ulrik Jurva, AstraZeneca, Göteborg, Sweden</i>
16.30	Predictive Science and AI in Drug Metabolism <i>Suzanne Winiwarter, AstraZeneca, Göteborg, Sweden</i>
17.00	<i>Goldsponsor lecture</i>
17.30	<i>Closing</i>
